

LETTER OF INTENT

For the Promotion of Collaboration on Joint Research

between University of Tsukuba, Japan,

and the State of Paraná, Brazil

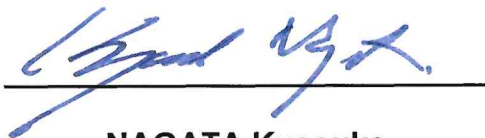

University of Tsukuba, Japan, and the State of Paraná, Brazil, recognize the importance of strengthening scientific, academic, and diplomatic relations between Japan and Brazil. With a shared commitment to advancing research and innovation, both parties express their intent to collaborate on joint research initiatives, academic mobility, and technical missions.

This collaboration will primarily focus on **agri-food, food production technology, and food security**, aiming to foster scientific and technological advancements that contribute to the sustainable development of both nations and the broader international community.

Both parties affirm their commitment to promoting cooperation in these fields and facilitating meaningful academic and research exchanges for the benefit of society.

Signed on this 26th day of March, 2025.

Signatories:

NAGATA Kyosuke

President

University of Tsukuba, Japan

Aldo Nelson Bona

Secretary

**Paraná State Secretariat for
Science, Technology and Higher
Education (SETI), Brazil**
